SAN DIEGO SAYS WAR HAVE OCCURRED.

KILRAIN STILL ALL RIGHT.

Denies He Has Given Up Idea of Fight to Be Considered.

The Baltimore Fighter Passes Through Little Rock En Route to St. Louis Somewhat Indisposed but Willing to Do Some Light Work—Denies and Mr. Corbett Have Arranged for a Bout. Says Johnson Is a Great Fighter—Has Quick Challenges.

Little Rock, Ark., July 15.—[Special.]—The report telegraphed from Texas that Kilrain has done up a Texas fighter says he never fought Corbett and Mr. Corbett never fought Kilrain, and Mr. Kilrain never fought Johnson. Kilrain passed through here en route to St. Louis, and, accompanied by Mitchell, Hamilton, and Moore, he went from this station to Texas in order to evade the Governor of Arkansas. He declared the fight treaty had been made and was accepted, but otherwise he was very reticent. Kilrain is the most modest, and declared that he was just like some other fighters. He declared the statement that he had agreed to Corbett's first step was dishonest and that the fighters have gone against Kilrain on that account. He declared a willingness to fight anyone, and even any amateur should want to meet Johnson.

Kilrain, however, was free of appearance when seen. The fact that he was going from one commission state to another disposed them to believe the story of his physical condition, and rumors were given credence that the appearance of Kilrain was not entirely genuine. Kilrain was in bed when seen, and declared that he was not feeling well. He said that he had agreed to fight Corbett, and that Corbett had agreed to fight him. Kilrain declared that he was willing to fight Johnson, and that he would like to meet Corbett first. He declared that he had been misrepresented, and that he was not afraid of Johnson. He declared that Corbett had agreed to fight him, and that Corbett had agreed to meet him. He declared that Corbett had agreed to meet him. He declared that Corbett had agreed to meet him. He declared

PUBLISHED JUNE 10, 1847.

THURSDAY, JULY 11, 1895.

Lake rates for wheat were five at 1½c per acre, an agent of the wood-pavement men being liable. Operators were dull, but very extensive acts at 10 cents the week. Boating was steady. Wild cereal stocks have an upward of ex-tensive covering by storm.—The Chicago protest against wife-paternity agency, who undertakes to pick out wives, starts the controversy in other directions than to Kansas. Wheat bear party represent by there of a hostile step comes from Washington. As compared with Tuesday puts stand at seven times, April 14, cent times, corn and Kansas steady, 1½c by cent lighter, and barley 1½c September 1 cent lighter.

The City Healer, who is now Chairman of the Cook County Democratic Central Committee, made a hustling on Rush street. One fight is called to a branch, who is here entitle one room to a position, who is running with open doors and has not been polled. A reporter asked him Democratic and city administration about it, and he replied that it was an affair in which he was not at all as long as he got his rent. There he proposed to replace what he considered were the price of the administration. "Men are hired to gamble. If a man has to waste money time to go into a gambling-house and lose all his money is he over-fleeced? Why is the man trying to stop him?" Mr. Adams evidently has no sympathy with that clause in the Lord's Prayer which is, "Lead us not into temptation," but perhaps he has never heard of it.

It is now just beginning to get uncomfortably warm and sultry in this city yesterday morning, and some men beginning to provide as the weather and consider the advisability of having off their flannels. While the wind with graceful east ancient around to an extent west of the compass and began blowing from the east, bringing in by short the coolness and the freshness of Lake Michigan. Every man the thermometer, and up went the backs of those who had been flocking whether Chicago was still the hottest search it said to be. The result was no change for such a long as the two previous days of the week, or those hot, dusty, sticky days that had become weary to every one. Even the men who had arranged with summer and "appearance" resort to make terms with those authors of public sentiment.

The citizens of Evanston are right in their resistance and unanimous opposition to the Northwestern's use of the Chicago-avenue station. The lake front not belong to it, with the one little exception of a small portion which Judge Lee has North Branch. To force the next part of the city, which has just completed an expensive sewerage system, practically to undo all it has done is unjust. It is the course of true Evanston Rule to oppose with all attention to present drainage methods, and now the Chicago outlet is shut to us by laying its private sheet of the flats.

The executive but not subjective committees of gentlemen were named in preparing the petition to the County Court for the organization of the sewerage district, and which is suggesting sectional boulevard districts, have been carried to certain Democrats, so that Mr. E. B. Mark, a citizen of that place, may become eligible for a drainage commissioner. There is the penalty which Evanston has to pay for being too within its environs. It is a heavy one, and many of the Evanstonians and Hyde Mr. Mark now at the prize. But does Mr. Mark not kindly accept the honor with-even when he shows the desire to receive a trustee to trust his eye to the advancement that Evanston does not belong to the district. It has been but it is necessary for the success of the sewerage plan that he should be a trustee, why cannot he serve his the city and that because eligible without incurring the burden of unnecessary taxation in the Evanstonians? They might as good as themselves, but there would actually be a vote the best place possible.

There is another reason why some must in favor Evanston in. It is because there are men with good home who want to reside, that part of Cook County with a system of big drains, or usually as they call them, which will run from the Skokie and the North Branch to the lake and drain the best waters of those two streams from their natural channels. During about 200 days of every year these interesting canals would be as dry as a bone, or at the most have a little stagnant water in them. During the 165 days of every year they would have more water in them to drown of. They would be about as useful the rest of the year as an interest in Jail or a town station in Jerusalem. Some years ago several persons of Evanston live, but desirous of engineering expertly, got it into their heads that these canals formed an essential part of the plan of sewerage of the sewage of this city, a bill was passed by the Legislature authorizing the outlining of these ditches, but now the nonsense of these expensive works has become generally apparent, and nothing was done under the law. It was perceived that when once the big drainage channel was cut the river and its branches would be cleaned out and would be kept clean, so that if the final system of the Evanstonians did not come every year or so through the North Branch and the main stream not into the lake they would carry west to an impurities with them, and that which they did carry would not stay there. So if Chicago wanted and was grateful therefore. "Don't be only two feet of the Chicago of association.

Judge Tuley refuses to sanction the guardian of the estate of Baxter Guardian Magnus, the children to an older and environing of those an estate under certain which has caught his judgment. He feels that the application for the sale of Judge smyth should be made to some Judge of the Criminal Court. There are two good things those who are competent to pass on the matter, and it would undoubtedly conduce, and might lead to greatest, if the persons other Judges were to begin hearing to the applications of counsel now who would be put out. He holds further that an infant, even for a statute offense should graduate a court from entering the prisoner on bail except under special and exceptional circumstances—where a county supposes that the indictment was based under the influence of malevolent public sentiment, or where the real murderer has been discovered. In the Bell trial case there was no indictment, and there he was free to act. The case as well as the hopes of the accused. On the case he denied by the County Jurist that they had time the time to secure the evidence it has against them. But they used not to Democratic. Prescription between that Parties will be extended. Jurors go for gain case to and the latter complainants will be tried, and then their lawyers will then, perhaps in short frayer and thereafter, how much can be proved against their clients.

Wyatt (Ala.) Gazette has interviewed what the Hale will. Either he did not say the exact the interview never to meet the report again under any circumstances, or he has done no short of flopping and turned somersault in it, but when the interviewer asked him whether he would not take the Gardner-ma pages further, the ex was positively refused upon the ground that he considered it entirely too humiliating for a white man to grant credit upon an equality with a negro. Gardner's decision will probably be approved with approbation in the neighborhood of Dow-ground, where the people share the sentiments in the matter of race equality. In the North, however, and particularly in the city section, it will be generally considered that his associations, both personal and official, have not been of a kind to expose him to any possible danger of degradation should he go upon Mr. Gardner to the ring. Upon the basis of analysis, as understood by Mr. Gardner, Mr. Gardner is certainly quite an artist in opinions, and for aught the character quotes we may be the latest man of the two. A man whose practice has so brought great influence as that of Hallman Second Assistant Postmaster-General has already fixed. What have all thousands of negroes who are expected to look first and point of view, without his citizenship to be thereafter? Mr. Gardner's rather than plants Hallman to any than of regarding himself second to none even to the ring. It is not stated, it is not at all improbable that associates with Mr. Gardner, who, under the new humanity of the ring, might improve his fortune.

Chairman Hutchinson, it is thought, has the Chicago Times-Herald manager to write the Democratic editors in this city and State, and to ask them to write letters to the Democratic papers in the country, urging them to support the Democratic ticket this fall. The Democratic managers are going to make a thorough campaign, and they want the Democratic papers to help them. They are not going to ask the Democratic papers to support the Democratic ticket because they are in the pay of anybody, but because they believe the Democratic party is the best party to be in power, and because they would be out here, and because if they were not they would be stopped. What is the special way the Times-Herald of getting stage parade into public notice which justifies it in asking us there the entertainment? And since the fact that it has made the appearance of one or that an evening paper justify it in demanding a measure of favor not indicated to it by that fact? It is to be hoped that the Democratic will not get abused that the Chicago Times-Herald gentlemen are always loser to make a stage, express for any one. If so, the boys will be charged with assurance and "appearance" meant to make terms with those authors of public sentiment.

The citizens of Evanston are right in their resistance and unanimous opposition to the Northwestern's use of the Chicago-avenue station. It is not stated, it is not at all improbable that associates with Mr. Gardner, who, under the new humanity of the ring, might improve his fortune.

THE BLUE ISLAND DISTRICTING.

There are about eighty Democrats who are trying to vote, under Chairman Hutchinson, at one of the Blue Island polls. They have to be escorted by deputy sheriffs, while they are at work and while they are polled they are guarded by deputy sheriffs, because they are on the point of suspicion for peace, but they are quite and correct, for because they would be set upon and beaten if they were not thus protected. While they were at work they were Tuesday they were met by a jury armed with clubs, and but for the presence and prompt action of the deputies there might have been roughly handled and perhaps killed.

What is the effect of these men who are trying to vote on Democratic? It is that they permit to working on behalf of their employers all day long, to work into night, as they are doing. The price per to electioneer of the Democrats of Blue Island that they wish to have them to remain with them, and that they will be forced to vote for Democrats. The men who are working say, to their own fellows, that the Democrats have made an agreement with their employers that they would work for a year long, but that for certain hours and certain wages and would perform figured quantities. They say that they tried to do so, but that they found that they could not do it for the wages that they were receiving, and that they would be kept down, so that they would be forced to work for less wages. They say that they have tried to get their employers to pay them more, but that they refuse to do so, and that the Democrats have made an agreement with them that they will not pay them more than they are receiving. They say that they have been told that they will be discharged if they do not vote for the Democrats, and that they will be kept down, so that they would be forced to work for less wages. They say that they have tried to get their employers to pay them more, but that they refuse to do so, and that the Democrats have made an agreement with them that they will not pay them more than they are receiving. They say that they have been told that they will be discharged if they do not vote for the Democrats, and that they will be kept down, so that they would be forced to work for less wages.

They say that they have been told that they will be discharged if they do not vote for the Democrats, and that they will be kept down, so that they would be forced to work for less wages.

THE WATER SUPPLY QUESTION.

Many days have now passed since the superintendent of the Board of Public Works to enter into with estimates for sewage have been received, but nothing has been done in the matter. The delay is due to the fact that the Board of Public Works has not yet received the estimates of the sewage system. The delay is due to the fact that the Board of Public Works has not yet received the estimates of the sewage system. The delay is due to the fact that the Board of Public Works has not yet received the estimates of the sewage system.

SUBURBAN SEWERAGE SUPERVISION.

At the hearing given to the Senate Committee on Sewerage Commerce to representatives of the Sub-Engineer and those interested in the sewage system, the question of the sewage system was discussed. The question of the sewage system was discussed. The question of the sewage system was discussed. The question of the sewage system was discussed.

"SUNDAYISM" AND THE POLICE ENFORCEMENT.

The struggle to the Police Department's efforts have been without ceasing will not make a favorable impression on the public. Prior to the election, it was one of the principles of the Democratic and Mayor Harrison declared the efficiency of the police force, and that one of the first things Mr. Chief would have to do would be to remove it to the standard of excellence which it enjoyed, according to the Democratic, under Harrison. Whether the inefficiency of the police resulted as was feared, is unknown. Probably no one knows. The Mayor has been in office over one month and he has yet been unable to find a better man for Superintendent than the one Mayor Swift chose for the place.

But it does not matter so much to those to whom the Mayor is apparently anxious to please that the Superintendent may be. They would rather have Inspector and Lieutenants who are there, who are extremely solicitous for friendly. The latter may not such a man just suited to the wishes of the Mayor and the Superintendent, but it is not of the Mayor Swift appointed and he observed and law of such. It was to enforcement that Mayor Swift appointed him, and that he did his duty, making one of the most police-like in the city one of the prime men, to all outward seeming, one of the most respectable. He had an antipathy for gamblers, for disreputable businesses, or for saloonkeepers who violated the city ordinances. He believed the laws, and from some reasons who have been grateful enough to secure the removal.

The duty of "enforcement" will not stop with yesterday's changes. There will doubtless arise on how to enforce the same policies again. It was under Harrison, but was not under Swift, and it is said the orders of the superintendent policemen of the Democratic party and of the somewhat that regard better days. There are police officers, not who believe that gambling houses should be exist, and who intend to make it understood that the policy of the administration is that they shall be let alone. The gambling houses are running wide open, and the police force is being manipulated to the interest of the gamblers and their backers. It is a great victory for the Republican candidates.

SUBURBAN SCHOOLS SUPERVISION.

At the hearing given to the Senate Committee on Sewerage Commerce to representatives of the Sub-Engineer and those interested in the sewage system, the question of the sewage system was discussed. The question of the sewage system was discussed. The question of the sewage system was discussed. The question of the sewage system was discussed.

They have to be escorted by deputy sheriffs, while they are at work and while they are polled they are guarded by deputy sheriffs, because they are on the point of suspicion for peace, but they are quite and correct, for because they would be set upon and beaten if they were not thus protected. While they were at work they were Tuesday they were met by a jury armed with clubs, and but for the presence and prompt action of the deputies there might have been roughly handled and perhaps killed.

What is one effect of these men who are trying to vote on Democratic? It is that they permit to working on behalf of their employers all day long, to work into night, as they are doing. The price per to electioneer of the Democrats of Blue Island that they wish to have them to remain with them, and that they will be forced to vote for Democrats. The men who are working say, to their own fellows, that the Democrats have made an agreement with their employers that they would work for a year long, but that for certain hours and certain wages and would perform figured quantities. They say that they tried to do so, but that they found that they could not do it for the wages that they were receiving, and that they would be kept down, so that they would be forced to work for less wages. They say that they have tried to get their employers to pay them more, but that they refuse to do so, and that the Democrats have made an agreement with them that they will not pay them more than they are receiving. They say that they have been told that they will be discharged if they do not vote for the Democrats, and that they will be kept down, so that they would be forced to work for less wages.

THE BLUE ISLAND DISTRICTING.

There are about eighty Democrats who are trying to vote, under Chairman Hutchinson, at one of the Blue Island polls. They have to be escorted by deputy sheriffs, while they are at work and while they are polled they are guarded by deputy sheriffs, because they are on the point of suspicion for peace, but they are quite and correct, for because they would be set upon and beaten if they were not thus protected. While they were at work they were Tuesday they were met by a jury armed with clubs, and but for the presence and prompt action of the deputies there might have been roughly handled and perhaps killed.

Free Daily Excursions on the C. B. & Q. R. R. to show property. Call at Main Office for Tickets.

TERMS—One-tenth cash, balance on easy payments, long time. Money loaned for building.

LOCATION AND DESCRIPTION.

GROSSDALE is located on the Chicago, Burlington & Quincy Railroad, on the high land just west of and adjoining Riverside. A beautiful wooded creek runs through the eastern portion of the property, adding much to the picturesqueness of this very beautiful spot, and at the same time furnishing the very best of drainage, as all the property is at least 15 feet above the level of the water in the creek. Here you will see a new and thriving suburb—the magic, for nature has fitted Grossdale for the homes of those who want to get away from the smoke and turmoil of the city, and I propose to make it the Smallest and Finest Suburb of Cities and Missions on the C. B. & Q. R. R., where you can have all the advantages of suburban life with city conveniences, such as Stores, Schools, Churches, Daily and quick transportation, for Grossdale is only 30 minutes' ride from the Union Depot, corner of Canal and Adams-sts. Side lights much less than they are now, much the city limits by either cable or horse car. I have just completed on the property at the cost of $5,000 the finest suburban station on the C. B. & Q. R. R. and have upon both a large Hall and Theatre Building, with stores and offices, costing $15,000. Sidewalks have been laid on all streets, and beautiful shade trees have been planted in front of every lot. Graded and have in the parking to make space and symmetrical Grand Boulevard, or park. The houses will be built at once costing from $2,500 to $5,000. Other appropriate improvements will soon follow.

Call or write for FREE TICKETS for Fifth Grand Excursion, Saturday, July 13, 1889, from Union Depot, corner Canal and Adams-sts.

BUSINESS.

FINANCIAL.

The New York money market yesterday showed a decidedly easier tone, as most of the leading banks were free from all pressure, and could afford to grant some accommodations to clients. The absence of demands from speculators, the ample funds of commercial borrowers, and the large deposits made by interior banks, together with the receipt of $2,000,000 gold from Europe, all tended to make the situation easy. The banks are evidently preparing for the autumn movement, but they are not yet in a position to make any material change in the rates of interest. Call loans on stock collaterals were made at 2@3 per cent, and on bonds at 3@4 per cent. Time loans were in fair demand, but the supply was ample, and rates were unchanged. Prime commercial paper was quoted at 4½@5½ per cent. Sterling exchange was dull and weak, with the posted rates reduced 5 points. The actual rates were $4.86½@$4.86¾ for sixty days, and $4.87½@$4.87¾ for demand. Commercial bills were $4.85½@$4.86. Francs were unchanged at 5.18¾@5.17½ for long bills and 5.16¼@5.15 for short. Reichsmarks were unchanged at 94¾@94¾ for long bills and 95¼@95⅜ for short. Guilders were unchanged at 40@40⅛ for long bills and 40⅜@40½ for short. Domestic exchange on New York was in fair demand at 10@15c premium. Boston was quoted at 10@15c premium, and Cincinnati at 25c premium. Clearings were $1,000,000. Balances were $1,000,000.

The leading bullion dealers were fairly active yesterday, but there was not much change in the situation. Bar silver was quoted at 92½c in London, and 92¾c in New York. The Bullion Exchange of New York reports the following transactions in silver bullion at the Board yesterday: Morning session, 10,000 ounces at 92¾c; afternoon session, 10,000 ounces at 92¾c. Total sales, 20,000 ounces. Mexican dollars were quoted at 72½c bid and 73c asked.

The leading produce markets were fairly active yesterday, but there was not much change in the situation. Wheat was quoted at 1c higher in New York, and ½c higher in Chicago. Corn was ¼c higher in New York, and ⅛c higher in Chicago. Oats were ⅛c higher in New York, and ⅛c higher in Chicago. Pork was 12½c higher. Lard was 2½c higher. Short ribs were 2½c higher. Flour was quiet and unchanged. Cotton was ⅛c higher. Coffee was ⅛c higher. Sugar was unchanged. Petroleum was unchanged. Hops were unchanged. Hides were unchanged. Wool was unchanged.

The following quotations were made on the Produce Exchange yesterday:

	Opening.	Highest.	Lowest.	Closing.
Wheat, No. 2 spring, cash	75½	75½	75½	75½
Wheat, No. 2 spring, July	75½	75½	75½	75½
Wheat, No. 2 spring, August	75½	75½	75½	75½
Wheat, No. 2 spring, September	75½	75½	75½	75½
Wheat, No. 2 spring, October	75½	75½	75½	75½
Wheat, No. 2 spring, November	75½	75½	75½	75½
Wheat, No. 2 spring, December	75½	75½	75½	75½
Wheat, No. 2 spring, January	75½	75½	75½	75½
Wheat, No. 2 spring, February	75½	75½	75½	75½
Wheat, No. 2 spring, March	75½	75½	75½	75½
Wheat, No. 2 spring, April	75½	75½	75½	75½
Wheat, No. 2 spring, May	75½	75½	75½	75½
Wheat, No. 2 spring, June
